## 从 BlueXP SaaS 部署 BlueXP 分类失败

[https://kb-cn.netapp.com/Cloud/ncds/Cloud\\_Manager/BlueXP\\_Classification\\_deployment\\_failing\\_from\\_...](https://kb-cn.netapp.com/Cloud/ncds/Cloud_Manager/BlueXP_Classification_deployment_failing_from_...)

Updated: Sun, 05 Oct 2025 20:19:10 GMT

### 适用于

- BlueXP
- BlueXP 分类

### 问题描述

无法部署 BlueXP 分类，出现错误：`Deployment unsuccessful. Make sure your configuration meets the requirements as described in the documentation`

## Deploying Classification

Attention required - please follow the instructions to continue deployment

### Deploying the Classification Instance

We need your assistance, here's what you should do:

Deployment unsuccessful. Make sure your configuration meets the requirements as described in the [documentation](#)

Full error details: The resource 'projects/ [redacted] /global/networks/gcp-[redacted]' was not found

Try Again

Verifying connectivity to the BlueXP and to the Internet

Initializing the Classification Instance

Cancel deployment
