### 适用场景

ActiveIQ Unified Manager虚拟设备(AIQUM)

### 问题描述

尝试升级AIQUM时、显示以下错误：

Checking available disk space.

Setting up the ISO...

You have downloaded incorrect ISO.

The ISO you are using for upgrade is either from an earlier or the same release.  
Make sure that a valid ISO is mounted on the virtual CD/DVD device.

Starting Active IQ Unified Manager service...

This operation will take several minutes to complete.

Starting Active IQ Unified Manager service succeeded.

Press any key to continue.
