

已切换的MetroCluster中显示包含"MC_已重命名_"的聚合名称

https://kb-cn.netapp.com/on-prem/ontap/MC/MC-KBs/aggregate_name_containing_%22mcc_renamed...

Updated: Mon, 06 Oct 2025 01:01:11 GMT

适用场景

- MetroCluster
- ONTAP 9
- 计划内或计划外切换

问题描述

- 在切换期间、vol show命令中会显示一个或多个包含字符串"**MCC**_RENAMED "的"幻影"聚合名称、并在切回后消失

示例：

```
ClusterA:.*> vol show Vserver Volume Aggregate State Type Size Available Used% -----  
----- vserver1-mc vserver1_root data_ClusterA_mcc_renamed_  
20251019122001_1907555203 - ...
```
