## 如何重新初始化分解存储？

[https://kb-cn.netapp.com/on-prem/ASAr2/ASAr2\\_KBs/How\\_to\\_reinitialize\\_disaggregated\\_storage](https://kb-cn.netapp.com/on-prem/ASAr2/ASAr2_KBs/How_to_reinitialize_disaggregated_storage)

Updated: Wed, 22 Apr 2026 10:21:24 GMT

### 适用于

- ONTAP 9.17.1 及更高版本
- ASA r2
- AFX
- 新建设置/安装

## 问题

- 尝试设置 ASA r2 或 AFX 存储系统时，可能会出现以下一个或多个故障消息：

```
Step 1 of 5: Create a Cluster
You can type "back", "exit", or "help" at any question.

Creating cluster

System start up .....
Updating volume location database .....
Updating volume location database .....
```

**Error: Create flex aggregates for storage pod failed**

Resolve the issue, then try the command again.

```
**** Entering boot_from_disk2 process ****
D-Blade Boot: bootarg.local.storage.pod.uuid is set:
b504d371-8ca2-11f0-90fe-d039ead8fcb4
Clearing safe boot
Waiting for VLDB online, count 1 (max 15)
Waiting for VLDB online, count 2 (max 15)
...
Warning: Timed out waiting for VLDB online, count 15
Waiting for pod rescan to mount root...
Waiting for pod rescan to mount root...

The cluster has already been created by the HA partner node. Another
cluster ...
```

**Error: The cluster has already been created by the HA partner node.
Another cluster cannot be created.**

- "cluster create" 操作可能由于以下条件之一而失败：
  1. 根据 [NetApp HWU](#) 群集网络配置错误或关联的网络端口未正确连接。
  2. 制造测试环境变量的残留物仍然存在。
