

StorageGRID 管理节点升级：升级后约 40 分钟内"服务不可用"（HTTP 503）

https://kb-cn.netapp.com/hybrid/StorageGRID/Maintenance/StorageGRID_Admin_Node_Upgrade__Se...

Updated: Sun, 26 Oct 2025 22:31:51 GMT

适用于

- NetApp StorageGRID
- StorageGRID 主管理节点和 Linux 操作系统容器
- StorageGRID 版本 11.9（从 11.8.x 升级）

问题描述

完成主管理节点升级到 StorageGRID 11.9 后，观察到以下症状：

- 网络管理器 Web 界面显示 `Service unavailable` 约 40 分钟。

- 升级工作流程不会继续升级其他节点；GUI 返回到 选择文件 步骤。

Maintenance > Software update > StorageGRID Upgrade

StorageGRID Upgrade

① Select files — ② Run prechecks — ③ Upgrade primary Admin Node — ④ Upgrade other nodes

Summary

Status : Primary Admin Node upgraded

Upgrading to : 11.9.0.8

Site	Node name	Progress	Details ⓘ
stg-s001	admin-container1		Completed

✓ The primary Admin Node was upgraded automatically. Select **Continue** to proceed to the next step.
