

## 未列出用于创建卷或移动卷的现有聚合

[https://kb-cn.netapp.com/on-prem/ontap/Ontap\\_OS/OS-KBs/Existing\\_aggregate\\_is\\_not\\_listed\\_for\\_volu...](https://kb-cn.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Existing_aggregate_is_not_listed_for_volu...)

Updated: 周五, 11 7月 2025 05:40:52 GMT

### 适用场景

- ONTAP 9

### 问题描述

- 创建新卷或移动现有卷时、ONTAP不会列出预期聚合。
  - 以下示例仅显示 1 个聚合：

```
cluster1::*> vol move start -vserver svmtest1 -volume data1vol  
-destination-aggregate ?  
aggr0_cluster1_01
```

- 。运行以下命令时、会显示 4 个聚合：

```
cluster1::*> storage aggregate show -fields aggregate,size,nodes,state
aggregate          node          size          state
-----
aggr0_cluster1_01  cluster1-01    9.10GB    online
aggr0_cluster1_02  cluster1-02    9.10GB    online
aggr1_cluster1_01  cluster1-01    1.20TB    online
aggr1_cluster1_02  cluster1-02    1.20TB    online
4 entries were displayed.
```

- 使用集群Shell命令行界面和ONTAP系统管理器时均会出现此问题
