集群映像验证失败、并显示脚本执行错误初始化失败

适用场景

- ONTAP 9

问题描述

- 尝试启动集群升级失败：

  cluster040::*> **cluster image validate -version 9.8P8** cluster040::*> **cluster image show-update-progress** Estimated Elapsed Update Phase Status Duration Duration -------------------- ---------------- ----------------- ---------------- Pre-update checks failed 00:10:00 00:00:00 Details: Pre-update Check Status Error-Action -------------------- ---------------- --------------------------------------- ScriptExecution Error **Error: Internal error. Initialization failed** Action: Verify that all nodes are healthy using the "cluster show"

- `cluster show` 或任何其他有关节点、环、LUN等的命令均未出现问题

- `system health alert show` 的输出也为空。
