

尝试创建SVM的扇出时、此过程将失败

https://kb-cn.netapp.com/on-prem/ontap/dp/SnapMirror/SnapMirror-KBs/When_attempting_to_create_a...

Updated: Thu, 16 Apr 2026 07:33:44 GMT

适用场景

SVM灾难恢复
ONTAP 9.4及更高版本

问题描述

尝试创建 第二个目标SVM DR关系时、此尝试会失败、并显示以下错误：

```
Error: command failed: Failed to create Vserver relationship information.
```

Reason: The Source Vserver "src_vserver" is already in an identity-preserve relationship with destination Vserver "dst_vserver1". A Vserver cannot be the source of more than one identity-preserve relationships.
