

新设置的MetroCluster 调解器连接状态为false

https://kb-cn.netapp.com/on-prem/ontap/OHW/OHW-KBs/Newly_setup_or_MB_replaced_Metrocluster...

Updated: 周五, 11 7月 2025 07:37:16 GMT

适用场景

- ONTAP 9
- 基于IP的MetroCluster

问题描述

- 检查新设置的IPmediator的状态时、连接状态显示为false：

```
cluster1_node_01::*> metrocluster configuration-settings mediator show
Mediator IP      Port
Node              Configuration Connection
                  Status      Status
-----
```

```
10.234.217.168 31784
cluster1_node_01      true      false
cluster1_node_02      true      false
cluster2_node_01      true      false
cluster2_node_02      true      false
```
