适用场景

适用于SAP HANA的SnapCenter插件 4.x

问题描述

备份完成，但在hana_<JOB_ID>.log 中出现以下错误：

```
Dataset[hanapluginserver1_acorporation_com_hana_XYZ], ResourceType,  
Status[Completed with Errors], [SCC-00161: Application unquiesce for the  
plug-in [hana] failed with exit code [1] and error : \nOperation  
[UNQUIESCE] timed out, refer logs for more details.\nSet the  
SC_AGENT_TIMEOUT parameter for configuring the timeout for the Plug-in for  
SAP HANA Database on this host by running \"Set-SmConfigSettings -Plugin  
-HostName hostname -PluginCode hana -configSettings
```

```
@{"SC_AGENT_TIMEOUT\"="\"timeout_in_seconds\"} \" PowerShell cmdlet from  
the SnapCenter Server.]",
