适用于

ONTAP 9

问题描述

"volume clone show" 的输出列出了父卷移动后不可用的父快照：

```
::*> vol clone show

          Parent   Parent                               Parent
Vserver FlexClone   Vserver Volume                     Snapshot
State      Type
-----
```

```

-----
vs3    flexclone_volA    vs3    moved_parent_temp__3586__65835__volA
(unavailable)    online    RW
    flexclone_vol1    vs3    moved_parent_temp__3603__66062__vol1
(unavailable)    online    RW
    flexclone_vol1__0001    vs3    moved_parent_temp__3603__66062__vol1__0001
(unavailable)    online    RW
    flexclone_vol1__0002    vs3    moved_parent_temp__3604__66063__vol1__0002
