ANDU 已暂停：（节点"node02"在交还后未处于"连接"状态。）

适用场景

ONTAP 9.10.1

问题描述

- ANDU u pgrade 暂停，因为节点在根聚合交还后未处于 UP 状态。

  ```
  The node state 'SF_CLUSTERWAIT' changes to SF_UP takes more than 15
  minutes.
  ```

- EMS 消息指出节点在交还后未处于"连接"状态。

  ```
  Tue Jan 17 13:58:49 +0000 [node1: upgrademgr:
  upgrademgr.update.pausedErr:error]: The automated update of the cluster
  ```

```
has been paused due to the following reason:  Node "node1": Error: {Node
"node1" is not in "connected" state after giveback.}, Action: {Use the
"storage failover show" command to verify that node "node2" is in the
"connected" state, and then use the "cluster image resume-update" command
to resume the update.}.
```
