

广播域默认值会在节点上划分为2个组

https://kb-cn.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Broadcast_domain_Default_is_partitioned...

Updated: 周五, 11 7月 2025 14:52:07 GMT

适用场景

- ONTAP 9
- 广播域

问题描述

EMS.log:

```
vifmgr.bcastDomainPartition: Broadcast domain Default is partitioned into
2 groups on node node01. The different groups are: {e0M}, {e0c, e0d}. LIFs
hosted on the ports in this broadcast domain may be at the risk of seeing
connectivity issues.
```
