

当目录是 SnapMirror 目标时，无法修改目录

https://kb-cn.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Cannot_modify_directory_while_it_is_a_S...

Updated: 周三, 09 7月 2025 14:17:59 GMT

适用场景

- ONTAP 9
- CIFS
- NFS
- Snapmirror

问题描述

- NAS 客户端尝试修改目录内容，但访问被拒绝
- `vserver security trace trace-result show` 说拒绝访问的原因是

- Access is denied as the volume is readonly or directory is a snapshot while checking for permission on parent directory during create.
