

在CVO卷上移动卷时返回有关实时重复数据删除的警告

https://kb-cn.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Volume_move_on_CVO_volume_returns_...

Updated: 周五, 11 7月 2025 08:03:45 GMT

适用场景

- ONTAP 9
- Cloud Volumes ONTAP (CVO)
- 卷移动
- 卷实时重复数据删除

问题描述

在CVO卷移动期间发出警告：

```
::*> volume move start -vserver svml -volume test_vol -destination-  
aggregate aggr1 -perform-validation-only true -cutover-action wait
```

```
Warning: The volume "test_vol" on Vserver "svm1 " is enabled for inline deduplication, and this command will move it to an aggregate "aggr1" with no support for inline deduplication (it is neither an AFFP nor a Flash Pool aggregate). Inline deduplication will be disabled. Do you want to continue? {y|n}:
```

发生原因

已在卷上启用实时重复数据删除
