适用场景

- ONTAP 9
- 休息

问题描述

在执行大量API请求时、ONTAP将 返回类似于 以下内容的消息：

```
httpd.api.expired.session.limit: A Manage ONTAP(R) API request (GET /api/private/cli/volume) has expired after 182 seconds. Last error: This request exceeds the configured session limit (20) for your application ("Harvest/24.11.1").
```

或

```
This request exceeds the configured session limit (20) for your  
application ("python-requests/2.25.1"). :: Throttled
```
