由于"链中的自签名证书"、无法分配LDAP客户端配置

适用场景

- ONTAP 9
- LDAP

问题描述

- 尝试将LDEPS客户端配置分配给客户端时、由于"链中的自签名证书"、操作失败
- EMS中会显示以下消息:

```
Tue Aug 27 11:22:44 -0500 [node1: secd: secd.unexpectedFailure:error]:
Unexpected SecD failure in Vserver "SVM1". Details: Error: Validate the
Ldap configuration procedure failed
```

```
[   0 ms] Hostname found in Name Service Cache
[    0] IP Address found in Name Service Cache
