

无法删除S3存储分段、并显示错误"原因：无法删除存储分段、因为它不为空"

https://kb-cn.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Unable_to_delete_S3_bucket_with_error_...

Updated: Thu, 16 Apr 2026 23:28:13 GMT

适用场景

- ONTAP 9 9.1及更早版本
- ONTAP S3

问题描述

- 无法删除S3存储分段、因为此存储分段不为空：

```
::> vserver object-store-server bucket delete -bucket bucket1
```

```
Error: command failed: Failed to remove bucket "bucket1" for  
Vserver "svm1". Reason: Cannot delete bucket "bucket1" on  
Vserver"svm1" because it is not empty. Delete the objects, and then try  
the operation again. For further assistance, contact technical support.
```

- object-count 显示0、表示存储分段不包含任何对象：

```
::> vserver object-store-server bucket show -vserver svm1 -bucket bucket1  
-fields object-count
```

vserver	bucket	object-count
svm1	bucket1	0
