## 问题描述

从7-模式系统过渡的目标卷上的Snapshot fsinfo无效、导致出现WAFL不一致错误：

```

waf1.inconsistent.snapshot:error]: WAFL inconsistent: deleting bad  
snapshot in volume vol01@vserver:vserver01, snapid 113, reason: Invalid  
snapshot fsinfo (snapid: 113, error: 4)  
Tue Oct 15 00:27:08 +0000 [Node01: waf1_exempt05:
